

Praxis Engineering extends its successful strategic partnership with Agitar Software

Praxis Engineering, a leader in software and systems engineering technologies, is pleased to announce the extension of our strategic reseller agreement with Agitar Software.

Agitar continues to win awards and accolades for their innovative approach to developer testing and Praxis is pleased to continue a successful relationship with Agitar Software. The success of the last year has proven the value of the Agitar technology, and when coupled with expert consultants from Praxis, has led to increased quality and productivity of our joint customers.

Jerry Schepers, Vice President of Sales and Marketing for Praxis Engineering, states, "Praxis is pleased to renew, strengthen and expand our relationship with Agitar. As a solutions firm dedicated to the success of our customers, it is important that we continue to bring to bear break through technology that greatly improves the quality of the software our clients depend on."

"2005 was an explosive year for Agitar and Praxis was a great part of that growth", stated Bob Foery, General Manager, Eastern Region. Bob went on to say, "We select our partners carefully and look for proven results – Praxis has demonstrated an ability to apply the Agitar technology to improve the quality and productivity of our joint customers. We are happy that Praxis has agreed to extend our relationship through 2006."

About Agitar Software

Agitar, the leader in Developer Testing technology, improves software quality and lowers development costs by helping developers actively test their own code. Agitar's products help developers deliver up to six times more new code per person-day, reduce the number of defects by up to 90 percent, and create software that is a flexible business asset. Thousands

of users at Avaya, Bear Stearns, Cisco, EDS, Fujitsu, GE Healthcare, Honeywell, Northrop-Grumman, NTT Data, Siemens Medical, webMethods, and other quality-conscious organizations use Agitar to improve the economics of in-house, outsourced, and offshored software projects. Agitar is a privately held company based in Mountain View, Calif. For more information, please visit www.agitar.com.
