

Praxis Engineering Is Selected As Finalist for the 2007 "IBM Rational Most Valuable Partner" Beacon Award

Each year IBM selects a handful of Business Partners who have set the standards for business excellence and customer satisfaction. The IBM PartnerWorld Beacon Awards acknowledges the best solutions IBM Business Partners have to offer from every business aspect. Praxis Engineering was one of more than 650 nominations that judges considered in selecting finalists.

"Praxis is extremely pleased to be recognized by the Beacon Award judges as one of the best in the field of the IBM Rational product suite," states Jerry Schepers, Vice President of Praxis. Jerry continues, "Praxis is proud of our long standing relationship with IBM and this achievement further acknowledges the hard work, technical ability and commitment to customer success embodied in every Praxis employee. It really is remarkable when you consider the strength and depth of competition from around the world, that Praxis was once again selected to receive this prestigious award."

About Praxis Engineering

Praxis Engineering, headquartered in Annapolis Junction, Maryland, is a consulting and solutions firm dedicated to the practical application of software and system engineering technologies to ensure the success of our customers. Praxis Engineering brings together world class engineering talent combined with software engineering best practices, domain expertise and commercial technologies to create high-value solutions aimed at helping our customers meet their mission critical needs.
