

Praxis Engineering Expands To The Southern United States With a New Office Location In Dallas, Texas

Annapolis Junction, MD, September 25, 2007 - Praxis Engineering, a leader in software and systems engineering technologies, announced today the continued expansion of Praxis into the mid-west with the opening of a new office in Dallas, Texas. This new office is a full-service systems and software engineering center.

Praxis offers a wide variety of services, including software and system engineering, program & project management, systems integration, configuration and change management, automated testing and training. The Dallas center will provide these same services to the growing mid-west market.

Paul Larsen, Director of DoD and Special Programs states, "After 5 years of continuous growth in the mid-Atlantic region, Praxis sees great opportunity in the mid-west, particularly the dynamic Dallas market." Paul continues, "Praxis chose Dallas as our base of operation because of the tremendous demand for the services Praxis offers and the availability of high quality talent that will enable Praxis to grow and successfully serve our customers."

About Praxis Engineering
